

# Engage - data rooms by Perivan

# Engage Data Rooms

**Engage - a secure, efficient and intelligent file-sharing tool for improving investor engagement and corporate activity, helping to ensure a successful outcome for fundraises and other corporate activity.**

- ▶ Eliminate the risk of security breaches by documents being accidentally or maliciously shared
- ▶ Control security using granular and permission-based access
- ▶ Make accessing documents easy for recipients
- ▶ Know if and when key documents have been viewed and for how long
- ▶ Improve visibility of information to increase significant fundraising opportunities
- ▶ Gauge the interest and appetite of each investor from a simple dashboard
- ▶ Encourage deeper real-time engagement with the Q&A/task function
- ▶ Improve your carbon footprint by reducing hard-copy documentation and physical attendance at roadshows

**Engage data rooms by Perivan  
- a user friendly, efficient  
and cost effective investor  
engagement experience**

# Problems Engage solves

# Engage use cases

# Why choose us

## Supporting you - a partner you can trust and rely on

A "can-do" personal approach from a highly experienced and dedicated team differentiates us in the marketplace.

**We could not have executed this fundraiser as quickly, professionally and as easily as we did, without the Engage data room.**

# About Perivan

Perivan provides expert solutions to the financial and professional services sectors and beyond. Our long-standing heritage in print has evolved over the years and today we proudly offer skilled services in the production of annual reporting and corporate finance documentation, creative corporate design and technology-led shareholder communications, investor interaction and marketing services platforms.

## Corporate Access

**Engage data rooms by Perivan** – a secure, controlled corporate and investor interaction platform for those involved in fundraising, investor relations, sales, compliance and board communications.

- ▶ Allow content tracking and audit
- ▶ Deal with Q&A and calls to action in real time
- ▶ eradicate security and data breaches
- ▶ overcome the risk of non-compliance
- ▶ eliminate missed sales opportunities
- ▶ avoid client/investor frustration
- ▶ cut out operational inefficiencies and waste
