

Engage

About Us

Since 1937 Perivan has been providing expert solutions to the financial and professional services sectors, and beyond. We work flexibly with your team to drive ROI across your core business functions, utilising the latest technology to get you there. Our long-standing heritage in print has evolved over the years and today, Perivan proudly offers technology-led marketing services, skilled corporate design and provides communications expertise for investor and shareholder relations.

Our Mission

Our mission is to improve the productivity of our clients' operations. We achieve this by enabling companies to quickly deliver their communications and essential documents to their

stakeholders. With our expertise we work hard to manage projects, understand client strategy, anticipate problems, assure quality and hit deadlines – making delivery smarter, faster and safer.

Investor Communications

Engage Software

Facilitate highly secure and immediate delivery of sensitive information and quickly identify & maximise investor opportunities.

Corporate Finance

We have decades of experience in dealing with Main Market IPO's, Mergers and Acquisition, Rights Issues, AIM Admissions, Fundraisings, Placings & Open Offers and many more.

Corporate Access

Maintaining effective, positive relationships with investors is key, and an important part of this is helping these key stakeholders stay well-informed about their investments. We can help you achieve this by supporting with Pre-IPO documents, Investor presentations, Results presentations and many more.

Annual Reports

Perivan have been a major player in the annual report market for many years with 210 Listed Company annual reports entrusted to us each year, plus several hundred closed and open-ended funds.

Print

We offer on-demand print services to meet all your investor documentation requirements.

Engage

Our Corporate and Investor interaction platform

Engage is an on-line collaboration tool that increases investor engagement and facilitates corporate activity in a secure, efficient and collaborative manner.

Historically, this confidential information exchange has been managed in an unsecured, time-consuming and expensive way, i.e. over email or by post.

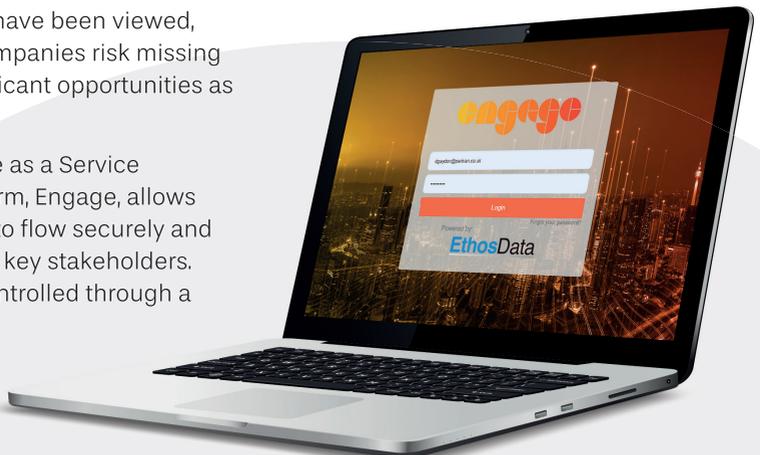

There is a real risk of those documents being mis-used or sent in error which could in turn lead to FCA breaches.

Moreover, there is no way of knowing if or when those documents have been viewed, meaning companies risk missing out on significant opportunities as a result.

Our Software as a Service (SaaS) platform, Engage, allows information to flow securely and quickly to all key stakeholders. Access is controlled through a

granular, permission-based system and the activity tracking module helps gauge the interest and appetite of each end-user (most notably Investors) from a simple dashboard. This in turn creates real-time opportunities.

Physical delivery of information as well as physical attendance at meetings, conferences and roadshows also has huge environmental implications with the prevalence of Covid-19 only accelerating the need to work smarter and more virtually.

Engage Features and Benefits

Increased security through encrypted transmission of data

Generate time and cost efficiencies

Safer management of your own clients' data

Improved compliance

Share information instantly

Easily track document activity to maximise investor opportunities

Replace dated and less secure software

Improve business continuity via online communication

Investor & Shareholder Communications

Our team can also assist on the following:

Print

We've curated a select list of print suppliers that meet the Perivan standard. Depending on your print requirements, your job can either be outsourced to one of our approved printers, or it can be handled by our own 24/7 print facilities.

Typesetting

Our 24/7, in-house typesetting team have a fantastic reputation in the industry and always deliver a speedy and accurate service.

Design Studio

Our integrated design service works with you to produce impressive and effective visual communications, for a wide range of global activities.

Quality control

Our team are well-versed in quality control and always aim for perfection. Nothing leaves our doors unless we're 100% happy with the result.

Mail Fulfilment

Whether it's a UK-based Investor Communication or one that needs distributing across the globe, our team are more than happy to help deliver. Tight deadline? No problem. Perivan is a 24-hour business. Our teamwork around the clock to ensure our clients' requirements are met whatever the hour.

Why choose us

**Supporting you -
a partner you can
trust and rely on**

A "can-do" personal approach from a highly experienced and dedicated team differentiates us in the marketplace.

Engage has vastly improved our Corporate communications on many fronts.

When it came to putting our confidential Company information into an orderly and secure platform, we were interested in discussing possibilities with Perivan, having worked with them for several years on our Annual Report.

Following an impressive demonstration and successful onboarding process, I am pleased to report that we have now completed the main phase in our data uploading into our new system. The tutoring and back-up in both learning how to use the system and the answering of queries in setting things up by relatively computer-illiterate Company personnel has been first

class and I have to commend the entire Engage team for making the whole process straight forward and easy-to-follow. The 24/7 support is a great comfort, particularly in the set-up phase as well as beyond.

Security is incredibly important – the system encryption is excellent and obviates our past need to send through sensitive confidential information via e-mails or other publicly available big-file storage and sending providers.

Additionally, the internal document tracking facility is first class and most useful in seeing who has been where within the system. An excellent, quality, safe and secure data storage and sharing system!
